

A close-up photograph of a door handle and lock mechanism. The handle is a long, dark, textured metal bar with a curved end. It is mounted on a door with a light-colored, wood-grain composite finish. The lock mechanism is visible at the bottom of the handle, showing a keyhole and a locking bolt. The background is slightly blurred, showing the edge of the door and a metal fastener.

“The Greenest Door from
the Greenest Company”

WELCOME

The Collection is an outstanding range of industry leading, solid laminate timber core composite doors that combine classical, modern or futuristic styling with a full range of Secured by Design locking, providing a stunning, high quality and secure entrance to any home.

With a thickness of 48mm, they are nearly 10% thicker than most alternatives.

Each unique solid timber core is completely encapsulated within a highly durable plastic edge banding and two thermo plastic door skins, so you will never have to worry about painting or varnishing your door.

These doors are exclusively available in the widest range of styles and frame colour options, (16 colours available, please see page 5) the option of a mobility threshold, making it the perfect solution for easy wheel or push chair access. A comprehensive range of matching combination frames are available with either glass, matching composite side panel or quarter panel, that will complement the look of any property.

Glass designs key

- CTL - Traditional Leaded designs
- CTB - Glass bevel designs
- CSB - Sandblast designs
- Diamond, Quad, Square, CRL, Jewel - Resin leads and tiles
- Royale, Clarity, Elegance, Prairie, Simplicity, Brilliance, Abstract - Triple glazed

The **ONLY** Hardwood core composite door on the market

U-Values from just 1.1 W/m²k

OUR GREEN PROMISE...

We are committed to doing our part in helping the environment, believing that the future of our planet is important, not only for ourselves, but for the future of our children. With many industry firsts already, we are always looking to pioneer greener products and methods.

That's why we minimise our waste and run an extensive recycling programme. We recycle all of our packaging, polystyrene, cardboard, PVC-u, timber, paper, aluminium and steel. All of the timbers used in our doors are harvested from forests which are managed to meet the social, economic and ecological needs of present and future generations.

Timber can make a significant contribution to sustainable construction

1. Wood is naturally renewable
2. It is independently certified to be sourced from sustainably managed forests
3. Doors with timber cores save energy
4. They last longer
5. They add to our quality of life
6. They have fewer environmental impacts than other materials

“All the timber used in our doors is harvested from forests which are managed to meet the social, economic and ecological needs of present and future generations”

Every ten minutes in Malawi, an area of forest the size of a football pitch is being cut down

We contribute to the ongoing growing of senna siamea seeds in small polythene tubes, which will provide a sustainable source of quick-growing fuel wood. On going, we will donate one of these for every composite door sold.

OUR GREEN INDUSTRY FIRSTS

-   100% recycled thermally efficient reinforcing system
-  5 chamber lead free thermally efficient profile
-  Extensive recycling programme
-  Door can be recycled at the end of its useful life, not destined for land fill
-  Fully manufactured in the UK to minimize our carbon footprint
-  Lead free door skins and edge banding

greenline 

Greenline - Kömmerling manufacture without the use of lead stabilizers, completely eliminating lead from the extrusion process. This change means that Kömmerling profile is one of the most environmentally friendly profile systems available.

Choose from over 4600 Colour Options

All of our fantastic designs are available in any of our 16 colours inside and/or outside of the door, including industry firsts, Mocha, Chartwell Green, Duck Egg Blue, French Grey and Irish Oak. Plus also available with Schwarzbraun, Grey, Cream, Rosewood, Irish Oak, Chartwell Green, Golden Oak, Foiled White and white matched frames.

We offer the largest range of colours from stock in the UK. Choose from 18 different frame colour combinations. With Solidor, you can mix and match for example: Chartwell Green on White outer frame with Duck Egg Blue on French Grey door.

THESE COLOURS ARE AVAILABLE ON DOOR AND/OR FRAME

THESE COLOURS ARE AVAILABLE ON DOOR ONLY

The frame colour is the same colour on both sides or colour on white

Edge Banding Colours

White as standard, brown on Rosewood and Schwarzbraun when coloured both sides, caramel on Oak and Irish Oak when coloured both sides.

Our standard range of doors are available with a smooth finish in the following colours; White, Rosewood, Oak, Irish Oak and Schwarzbraun*

OUTER FRAME OPTIONS

Which frame would you like? Choose from Kömmerling Chamfered C70 or Sculptured O70 outer frame

If required, with this selection you have the option of a matching door frame both sides, white on one side or white both sides. Or mix and match!

*Always grained cassettes. Excluding The Flint, Windsor and Palermo range and the Italia Collection only available in white, Rosewood, Oak, Irish Oak, Schwarzbraun. Due to the limitations of the lithographic printing process, colour samples may not be an exact match to actual doors.

Secured by Design

Official Police Security Initiative

SAFE & SECURE

We understand, that knowing your home and family are protected, is a major factor when choosing your new doors.

Security and safety are amongst our highest priorities. Sadly a property is burgled in the UK every minute, but our 48mm thick solid timber core gives you the strongest and most secure option available in a residential door.

You can rest assured that with our door construction, coupled with our unique, reinforced door frame and Secured by Design locking systems, your property will be as safe as can be when you choose us.

THE HIGHEST STANDARD OF CYLINDER

You will be glad to know that by upgrading to our high security cylinder you are protected by all of these benefits;

Largest security dead bolt in the UK

Unique 'Patented' compression dead bolt

Avantis Multi-point Locking - A close up of our unique ,multi-point security hook

Key operated Multi - If you'd like no handle on your door, why not upgrade to our Key operated multi point lock?

Heritage Lock - The aesthetics of a traditional rim latch, but incorporating the latest high security multipoint lock, which activates automatically once the door is shut

As standard we fit Avantis Secured by Design, High quality Multi-point locks

Avantis security cylinder guard - Combined with our Magnum cylinder means the ultimate in security upgrades.

ProSecure High Security Door Handle

The ProSecure door handle features security protection burglars can see... and patented reinforcement technology that they can't.

The ProSecure door handle, manufactured from a strong zinc alloy, has a wealth of features to provide enhanced security and visible protection.

Secured by Design approved, the Police Preferred Specification logo is engraved onto the handle to act as a visual deterrent.

CONTROL AT YOUR FINGERTIPS

We are all used to unlocking our cars with a remote control, but wouldn't it be great if you could do the same with your front door?

Well now, thanks to Yale you can - with this brand new product only available on new composite doors from selected dealers.

Keyfree is the very latest in door security from Yale, and combines peace of mind with convenience by allowing you to access and protect your property without a key.

Whether you use the remote control like your car, or enter your own 4-12 digit code into the built-in keypage, Yale keyfree couldn't be easier to use - and because it's brought to you by Yale, you know it's technology you can trust.

With Yale Keyfree everything's covered. The unit is powered by it's own batteries - so even if the power fails it still works, its backed up with an override key for emergencies and unless you ask it not to, will even talk to you as you use it!

KEYLESS DIGITAL LOCK

Do you sometimes wish you could leave your house without having to take keys with you?

With the new Yale Keyless Digital lock you can do just that! The touch screen pad gives you an easy and convenient way of opening your door.

There's NO Keys, NO Hassle, NO fuss all you have to do is remember your own unique pin number. You can even create a temporary code to give other people access to your home when you want to, this code can then easily be deleted without having to worry about collecting keys or changing locks.

The Yale Keyless Digital lock is secured by a mechanical nightlatch located on the inside of the door with a battery pack containing 4xAA batteries.

Unlock your door up to 10,000 times with one set of 4xAA batteries if the batteries reach a critical level a warning light will illuminate reminding you to change the batteries.

In the event of your battery going flat you have two battery contact points enabling you to fit a 9V battery to power the lock temporarily to enter your pin and gain access.

For additional convenience, the lock has a memory feature so that you do not need to re-program your PIN numbers when changing batteries.

REMOTE CONTROL LOCKING SYSTEMS

We have a huge product range of high quality composite doors, incorporating exclusive architectural hardware and a fully remote control locking system

REMOTE CONTROL AV2E LOCKING SYSTEMS

- Multiple remote control fob and entrance system compatible
- Stylish easy to use intercom
- Automatic locking as standard
- Speak to visitors and let them in from anywhere in the property
- Range of 200m
- Large tactile buttons for elderly or disabled
- Security override to prevent accidental opening
- Rolling code technology
- Control system fully retracts the hooks and latch
- Easy hardwire system with a simple 240v plug required
- Manual cylinder override
- Push button, Keycard and Bio metric compatible

PEACE OF MIND GUARANTEE

Each door benefits from a 10 year manufacturing guarantee, which covers all aspects of the door and multi-point locking mechanism.

All of our doors are manufactured to the highest quality standards. Having achieved BSI ISO 9001, Pas-23, Pas-24 and Secured by Design accreditation, you can be completely confident that Solidor manufacture to only the highest standards.

We use only the finest materials, hardware and accessories on our doors so we know every door we manufacture will look fantastic for many years.

To keep your door looking at its best simply wipe down the door with a soft, damp, lint free cloth using mild, warm soapy water.

You should also help to keep your door furniture looking fantastic by polishing the handle and letter plate with a regular furniture polish or similar once a month.

Finally lubricate the working parts of the locking mechanism once a year.

Our Prolinea Letter plates and handles carry a 2 year guarantee. Rim latches and door knockers carry a 12 month guarantee, however looked after, they will last for many years.

THE COMPARISON

A TYPICAL FOAM FILLED CONSTRUCTION

Only a small section of the door is actually solid.

Thermally great, but foam filled so not solid, nor secure.

Gel coated GRP maybe strong but it scratches very easily.

Most other doors have frames containing lead stabilizers. The frames are only 3 chambers thick and use valuable steel or aluminium reinforcements.

SOLIDOR CONSTRUCTION

Lead free, 5 chamber profile with 100% recycled reinforcing.

Thermally efficient Solid Timber Core.

Robust through colour thermo plastic skins.

Realistic wood grain effect or smooth finish.

Optional integral mobility access aluminium threshold.

DOUBLE & TRIPLE GLAZED UNITS

Our double and triple glazed units are manufactured to BSEN1279 and are manufactured using 4mm toughened safety glass for our double glazed sealed units and a mixture of laminated glass and toughened glass for our triple glazed sealed units. Both have excellent heat retention properties.

COLOUR FASTNESS GUARANTEE

All of our doors have a guaranteed UV stable colour fastness. All of our Foiled products match, so that the door and the frame match together.

ENERGY EFFICIENT REINFORCING

Each door is manufactured using 100% fully recycled door frame reinforcing. As well as superior thermal performance. Werbar is also super environmentally friendly and out performs steel and aluminium when it comes to screw retention.

HIGH QUALITY FURNITURE

We were the first company to embrace the Prolinea range of door hardware. This selection is highly contemporary and of a premium quality. Care instructions are always included with our letter plates.

MULTIPOINT LOCKING

A wide range of multi-point locking, so whether it is a standard handle operated, night latch and key operated multi or just a key only multipoint locking, security is never compromised.

TRISYS GLAZING CASSETTE SYSTEM

A premium glazing system, where fashion and function were viewed as being equally important. No screw hole plugs - Clean design on both outer and cover frames with classic crown molding and a handcrafted appeal. All of our glazing cassettes can re-glazed if required.

Our Avantis Secured by Design Multi Point Lock.

NOTTINGHAM

A unique door with real appeal for traditional properties with arched features.

FRENCH DOORS

All of our designs, in all of our colours are available in a French Door option, with a range of handle options, encompassing a high security, adjustable, multipoint locking system. N.B Lever pad is appearance only, split spindle is not available on French Doors.

Available as inward or outward opening doors. Because our French door range is so vast, please contact us for the minimum and maximum sizes before you order your set.

NOTE: Available with UPVC and aluminium threshold on inward opening sets, and UPVC only on outward opening sets.

Design pictured is a Flint with Beeston cassette

STABLE DOORS

All of our standard and many of the Italia Collection door styles are available as stable doors, in any of our colours on any side.

All of our stable doors come with a high security, fully adjustable multi-point locking system. They are also keyed alike, benefit from an internal thumb turn cylinder on the bottom half and have a latching security bolt as standard.

NOTE: Stable doors only available opening inwards

SIDE PANELS

Complement your property with a full range of matching full height and half side panels.

Available in any of our colours inside or out.

NOTE: Full height side panels are 48mm thick and appear identical to the main door. Half and quarter panels are 28mm thick and are bead glazed.

ACCESSORIES

A fine selection of beautiful accessories to perfectly complement your choice of door.
Whether modern or traditional you will find an accessory to really make your door stand out.

DOOR KNOCKERS

LETTERPLATES

The first composite door to embrace the stunning Prolinea letterplate. Care instructions included on every letterplate

HINGES

Our new slimline, face fixed flag hinge is sleek and modern. It has successfully gone through Pas 23-24 testing

HANDLES

A large range of premium quality handles to complement our doors. Available with a choice of a standard lever or one of the three exclusive options across the whole range of finishes.

Enlarged example of contemporary brushed chrome finish texture

Tube

Flat

TRADITIONAL IRONMONGERY

We have a range of stunning traditional knockers and handles that add a real touch of class.

THRESHOLDS

To allow for every circumstance we offer the largest range of door thresholds. All of our Stormguard aluminium thresholds are Part 'M' compliant within the latest Building Regulations for easy access.

THUMB TURN CYLINDER

The thumb turn cylinder option is available across our entire range and is available with all of our locking systems. Available in nickel or gold.

NOTE: Thumb turn type may vary slightly in appearance subject to availability.

SECURITY DOOR GUARD

Italia

COLLECTION

The Italia collection is a new generation of truly contemporary designs which will add a touch of style to your home. Carefully designed and crafted from the finest materials, every door in the Italia collection has a definite style inspired by the Italian passion for design.

Each door is handmade in Staffordshire, ensuring the finished product is of an outstanding quality and made as individual as can be. Choose from a range of glass styles and door furniture which has been carefully chosen with the latest fashion and designs in mind. All of the doors in the Italia Collection are also available with Warwick Glass - hand made so no two pieces are ever the same.

As with any product from us, you can be assured of the outstanding quality of our solid laminate 48mm timber core composite doors which combine modern styling with high security locking systems.

N.B All of our Italia collection styles can be on a grooved or flat grained base, see our Verona door style.

Pilkington Texture Glass Warwick™

This design is unique amongst our patterns because it is produced using a different manufacturing method. Pilkington Texture Glass Warwick™ is a random pattern that is added along the central portion of the pane and this has implications when cutting the glass down into finished sizes.

It is possible, if a pane is small enough, it could be cut with no evidence of the pattern at all.

None of the Pilkington patterns are designed to have an orientation (an up side) but care needs to be taken with adjacent panes that the pattern direction is maintained. There is a linear nature to Pilkington Texture Glass Warwick™ and so householders should be aware that there could be aesthetic implications when choosing this design. Also, for the glass supplier the result may be that this pattern is less accommodating when cutting and may result in a greater proportion of seldge from the original glass plate.

Warwick Glass Available in all of our doors

Abstract Glass Available in the Pisa, Turin and Siena

Satin Glass Available in all of our doors
